anyCommerce Main Marketing Site

Main Page

Please use actual type whenever possible. The headers may need to be images, but if there's a way to create the headers with CSS and it works on 90% of browsers, then do it.

The smaller clouds will move VERY slowly form the sides towrds the center. Movement that's "barely preceptable" is what we're looking for.

The font for the body copy is **Myriad Pro Regular and Semibold.**

The font for the header copy is
Berthold Akzidenz Grotesque - Medium Condensed.

Main Feature Area

CLOUD 2 to move slowly to the left

CLOUD 1 to move slowly to the right at a different rate from CLOUD 2

All body type to reamin type.

Header type to stay in font. CSS or images

Features at a Glance & Sign Up areas

Type to stay in font. CSS or images

Icons & Type will have links

Create link and form accordingly

Success Stories, Partners and Bottom Area

Logos will be lijnks to Success story of that company

Each of these logos will have a link, but they will not be linking to that company's website. Will add links later

Create links and forms accordingly
